CAREER

Teresa Galí-lzard, Technical Agricultural Engineering and Landscape, and y Jordi Nebot, Architect, create **ARQUITECTURA AGRONOMIA** in 2007 after a long career as self-employed and employees in other offices.

ARQUITECTURA AGRONOMIA is a company by an interdisciplinary team of agricultural engineers, and architects who collaborate with forestry engineers, biologists, civil engineers and geologists.

Since first day carrying out projects of private gardens, urban gardens, parks, interventions in the landscape, restorations of natural environment, city-planning and management plans, investigating new ways to focus the projects with materials from the nature.

Our projects explore new languages consistently resolve the relationship with the environment, and integrate the temporal dimension through the management and development of the project over time.

ARQUITECTURA AGRONOMIA collaborates with various architectural and engineering firms, bringing his unique vision to develop projects.
